

cirkus TeTy

Technical and operational rider for Peeping Janes (Voverky):

Space: minimum 6 x 6 m, optimal 6–8 x 6–8 m

Floor: black performance floor (will be partially laid over with our mirror floor)

Rigging:

Height: ideally 6–7 meters (can be more)

Rigging trusses: 2 trusses in the middle of the stage running side to side (not front to back)

2 meters apart (or ideally, movable trusses that we can adjust)

Sound: a mixer board, regular sound equipment (we play music from a notebook)

Lights: see the light plan

During the show:

We would like to ask for two people as back-up for our babysitters in the audience area (they will not participate in the show in any way, we just need them in case one of our children decide to run out of the theater or something)
